

Construction Software & FM Solutions

# Design, Construct & Maintain

# THE LEADING END TO END SOLUTION

for construction delivery and building maintenance management

## STREAMLINE CONSTRUCTION PROJECTS

OmTrak gives you key building intelligence whilst digitising and organising communication and documents. The project collaboration features drive performance and productivity across the board. Omtrak connects teams with important project information on one central platform, accessible from any device, anywhere, anytime.

## PRODUCE QUALITY BUILDING INFORMATION

OmTrak simplifies building information management at every stage, using collaborative tools to ensure project-critical data is accessible and relevant. The quality building information produced by OmTrak reduces delays when the construction project reaches handover.

## SMOOTHLY TRANSITION TO FM

Hit the ground running with a smooth transition to facility management. Owners can access O&M Manuals and asset information during construction to check the information quality. After handover building Information can be managed in OmTrak or seamlessly uploaded to any client FM System.

## SUPPORTED BY EXPERTS IN THE INDUSTRY

OmTrak was developed by industry experts at WebFM. It has been refined over the last twenty years to ensure high quality project outcomes. Our inhouse consulting services provide additional support for those that need help.

*"Fantastic tool for the construction industry. The ease of use of this platform, the pre-saved information that is tailored to your client is a huge time saver!"*

*"I like the ease of use and very fast customer service. Also, the flexibility and ease of exporting information received."*

The Toaster - Sydney

## Used on Construction Projects Globally

Airports, Schools, Universities, Hospitals, Warehouses, Retail, Sports Stadiums, Apartments, Governments

Reem Mall - Abu Dhabi

# The Power of Collaboration for - Owners, Developers, Architects, Engineers and Contractors

OmTrak has easy to use tools for everyone in the team. Allowing users to collaborate and efficiently manage construction project information. Each project has unlimited users with access levels set by the managers. Users can access OmTrak via the Web or mobile app. Teams will experience a new level of efficiency at every stage of the project.

OmTrak is priced per project with unlimited users.

*"The ability to handover quality documentation on time is paramount. OmTrak has allowed me to do that across my last 3 projects. OmTrak was dynamic, flexible, and progressive. I cannot recommend highly enough" - Al Parker **Laing O'Rourke***
